SUMMARY

I have been working with web development since 2012, the period during which I have worked in different environments, from big consultancy companies to start-ups. I am a self-motivated and self-taught professional who likes to solve problems.

I merge a passion for usability and user experience with technical knowledge to create cool digital experiences. My repertoire includes programming languages and tools such as Angular, ReactJS, ReactNative, Python, Ruby on Rails, PHP, MySQL, PostgreSQL, Nginx and Apache server configuration, SASS, LESS, Twitter Bootstrap, jQuery, and more.

EXPERIENCE

Team Leader

Zeta Tech Solutions

📅 06/2020 - Ongoing   📍 Nablus, Palestine

At ZetaTech we build your future mobile and web application venture from design to marketing at a competitive rate.

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality.
- Lead a team of 4 front/back end developers, giving support to the client's multi-cultural team, providing feedback, clarifying requirements and helping with technical questions

Senior Software Engineer

Media Clouds Ltd

📅 10/2019 - 06/2020   📍 Ramallah, Palestine

Media Clouds is a Technology Services Company supporting businesses with cutting edge solutions to increase their profitability by providing our team's expertise in regards to the Emerging E-Commerce & Mobile Apps Technologies.

- Develop web applications based on Laravel, Codeigniter, Opencart and Apache server
- Keep the Project Manager updated on the overall progress of the projects and manage the tasks distributed to the team
- Keep the code and the features implemented by the other developers in accordance to the requirements
